The Seventh Edition of

« The National Concrete Days NCD'25 »
« Les Journées Nationales du Béton JNB'25 »

From October 31 to November 02, 2025, at Hammamet (Le Sultan Hotel), Tunisia

Conference supported by RILEM

*The Civil Engineering Laboratory of the National School of Engineering of Tunis (**LGC-ENIT**), part of the University of Tunis El Manar, and the Tunisian Concrete Association (**ASTUB**) co-organise the Seventh Edition of **The National Concrete Days NCD'25** (Les Journées Nationales du Béton JNB'25). This event aims to bring together Tunisian and French-Maghreb researchers to present their innovative research and discuss advances in the field of concrete and cementitious materials and structures. The themes of NCD'25 will mainly cover the formulation, the characterization and the modeling of the physical and mechanical behavior as well as the durability of concrete and cementitious materials and structures. The topics of recycling, the recovery of waste and by-products in concrete, and reducing the carbon footprint of cementitious materials will also be addressed during these days. Finally, this conference aims to establish a framework for fruitful exchange between researchers and professionals in order to create a sustainable synergy of collaboration around new scientific and technical developments related to concrete, with the participation of eminent international experts in this field.*

The coordinators of JNB'25 : Aïdi MARZOUKI & Slim KAMMOUN

COMMUNICATION FIRST CALL

Researchers working in the field of concrete and cementitious materials and structures and wishing to present their recent scientific works at ***NCD'25 (JNB'25)*** are invited to submit a one-page abstract using the template attached to this call before March 31, 2025. Abstracts should be submitted by e-mail to the following address: jnb25@astub.org.tn
